ORP History

The Optional Retirement Program (ORP) was established by Chapter 556 in 1975. It was created to offer an alternative to the defined benefit retirement plan for the professional staff of the State's public higher education institutions. The ORP is a defined contribution plan, in lieu of the various state-operated defined benefit plans. The Plan does not require member contributions and is solely funded with employer contributions at a rate of 7.25% of a participant's salary.

Upon joining the ORP, a member is immediately fully vested in the member's total account benefit. Enrollment into the ORP is an irrevocable decision.

The Board has the authority to hire and terminate vendors for the ORP, as well as approve the investment options offered by the approved vendors.

- TIAA-CREF was the sole vendor for the ORP until 1993.
- Chapter 428 of the Acts of 1993 authorized the expansion of the ORP to include up to four additional vendors to complement TIAA.
- As of July 1, 1995, the Board added VALIC, Aetna and Twentieth Century, as additional vendors.
- Voya (formerly ING & Aetna) and American Century (formerly Twentieth Century) were terminated as vendors on December 31, 2004.
- The Board added Fidelity as a vendor in 2005.
- VALIC was terminated as a vendor on December 31, 2007.

The Board is NOT responsible for:

- Retirement counseling with respect to the program;
- Preparing or disseminating information with respect to any annuity contract offered by a vendor; and
- Enrolling, terminating, or retiring a participating employee.

An employing institution includes:

- The University System of Maryland
- Morgan State University;
- St. Mary's College;
- The Maryland Higher Education Commission; and
- Any community college or regional community college

An employing institution is responsible for administering the enrollment, termination or retirement of its employees participating in the ORP.

RNCP 'QXGTXIGY

Overview

An RFP process for recordkeeping services conducted in 2017. The evaluation committee, assisted by Segal Marco Advisors, reviewed the responses and interviewed candidates. Finalist presentations were made to the Board by Fidelity and TIAA. The process resulted in:

- Retention of both Fidelity and TIAA as service providers to the Optional Retirement Plan
- Reduction of the recordkeeping and administration fees to \$45/participant for both Fidelity and TIAA
- For TIAA, move to the institutionally controlled Retirement Choice contract
- Addition of a self-directed brokerage window for both Fidelity and TIAA
- Return of revenue sharing to the investment option that generated it on a pro-rata basis

Total assets in the Fidelity plan have increased from \$258.8 million to \$398.2 over two years ending December 31, 2017. The increase in plan assets resulted from net contributions totaling \$53.9 million and investment gains of \$85.5 million. Contributions for the period were \$73.9 million, an increase of 10.2%, and disbursements were \$22.1 million, an increase of 17.6%. Transfers from other providers equaled \$2.2 million. As of December 31, 2017, 56.9% of plan assets were invested in the Fidelity Freedom K funds, a 3.7% increase since 2015. In addition, 73.8% of 2017 plan contributions were directed to those funds, up modestly from 69.8% at the end of 2015. The Fidelity Freedom 2040 had the most assets, followed by Fidelity Freedom 2045 and then 2035. As of December 31, 2017, there were approximately 10,548 participants (8,482 active & 2,066 inactive/terminated) in the Plan, an 18.6% increase from 8,894 in 2015.

In 2016, the following changes were made to the Fidelity investment line-up:

- Vanguard Treasury Money Market replaced Fidelity Cash Reserve
- Fidelity Spartan Inflation Protected Bond replaced Blackrock Inflation Protected

The majority of the State of Maryland ORP assets remain in the TIAA plan. As of December 31, 2017, plan assets totaled approximately \$3.2 billion, a two-year increase of \$514.7 million. Plan contributions of approximately \$167.8 million, an increase of 0.8% over the prior two years, were offset by disbursements of \$243.7 million, an increase of 5.0%. Investment gains for the two years totaled \$589.5 million. As of December 31, 2017, 31.6% of plan assets were invested in the TIAA Traditional account. However, only 13.6% of 2017 plan contributions was directed to that investment option, while 39.8% was directed to Target Date Funds. This contribution trend has been consistent since 2013. 56.2% of Plan assets is invested in the TIAA Traditional and CREF Stock funds, a decrease from 62.0% in 2015. There were approximately 33,459 participants in the Plan at the end of 2017, a slight increase from 33,342 at the end of 2015.

In 2016, the following changes were made to the TIAA investment line-up:

- Vanguard Inflation Protected Securities replaced Blackrock Inflation Protected
- Vanguard Treasury Money Market was added

QTR'TGEQO O GP F CVKQP 'UWO O CT[

Overall Recommendation Summary

Recommendations - TIAA:

1. Approve the change in share class for the Vanguard Inflation-Protected fund from ticker VAIPX to VIPIX.
 - a. Replacement is recommended due to the lower expense ratio (0.07% vs. 0.10%).
 - b. Assets and future contributions should be mapped to the new share class VIPIX.
2. Remove the CREF Money Market Account.
 - a. Replacement is recommended due to a higher net expense ratio of 0.13%, and lower performance results relative to the Vanguard Treasury Money Market fund.
 - b. Assets in the Retirement Choice contract, and future contributions should be mapped to the Vanguard Treasury Money Market (VUSXX) fund. Any assets in the legacy Retirement Annuity contracts would not be eligible for mapping.
3. Remove the CREF Equity Index Account.
 - a. Replacement is recommended due to the higher net expense ratio of 0.13%, and lagging performance results relative to its benchmark the Russell 3000 Index.
 - b. Assets in the Retirement Choice contract, and future contributions should be mapped to the Vanguard Institutional Index (VINIX) fund.

Though the funds do not manage to the same index, Russell 3000 versus S&P 500, the compositions are similar with the S&P 500 constituting roughly 80% of the Russell 3000.

Recommendations - Fidelity:

1. Approve the change in share class for the Fidelity Diversified International fund from ticker FDIKX to FKIDX.
 - a. Replacement is recommended due to the lower net expense ratio (0.60% vs. 0.62%).
 - b. Assets and future contributions should be mapped to the new share class FKIDX.
2. Approve the replacement of the Neuberger Berman Socially Responsible fund (NBSRX) with the Vanguard FTSE Social Index fund (VFTSX).
 - a. Replacement is recommended due to Neuberger Berman's lagging performance relative to the benchmark and peers.
 - b. Assets and future contributions should be mapped from the Neuberger Berman Socially Responsible fund (NBSRX) to the Vanguard FTSE Social Index fund (VFTSX).
3. Approve the replacement of the Franklin Mutual Global Discovery fund (FMDRX) with the AQR Global Equity fund (AQGIX).
 - a. Replacement is recommended due to Franklin's lagging performance relative to the benchmark and peers.
 - b. Assets and future contributions should be mapped from the Franklin Mutual Global Discovery fund (FMDRX) to the AQR Global Equity fund (AQGIX).

TIAA Recommendation Summary

Recommendations - TIAA:

1. Approve the change in share class for the Vanguard Inflation-Protected fund from ticker VAIPX to VIPIX.
 - a. Replacement is recommended due to the lower expense ratio (0.07% vs. 0.10%).
 - b. Assets and future contributions should be mapped to the new share class VIPIX.
2. Remove the CREF Money Market Account.
 - a. Replacement is recommended due to a higher net expense ratio of 0.13%, and lower performance results relative to the Vanguard Treasury Money Market fund.
 - b. Assets in the Retirement Choice contract, and future contributions should be mapped to the Vanguard Treasury Money Market (VUSXX) fund. Any assets in the legacy Retirement Annuity contracts would not be eligible for mapping.
3. Remove the CREF Equity Index Account.
 - a. Replacement is recommended due to a higher net expense ratio of 0.13%, and lagging performance results relative to its benchmark the Russell 3000 Index.
 - b. Assets in the Retirement Choice contract, and future contributions should be mapped to the Vanguard Institutional Index (VINIX) fund. Any assets in the legacy Retirement Annuity contracts would not be eligible for mapping.
 - c. Though the funds do not manage to the same index, Russell 3000 versus S&P 500, the compositions are similar with the S&P 500 constituting roughly 80% of the Russell 3000.

1. Share Class Recommendation:

Segal Marco Advisors and Staff recommend changing share classes for the Vanguard Inflation-Protected fund. The current option (VAIPX) has an expense ratio of 0.10%, while the VIPI share class has an expense ratio of 0.07%. Participants will save 0.03%.

2. Remove the CREF Money Market Account:

Segal Marco Advisors and Staff recommend removing the CREF Money Market. Removal is being recommended due to the Money Market Account's higher expense ratio of 0.23% (net expense ratio of 0.13%; 0.10% revenue sharing) and lower performance relative to the Vanguard Treasury Money Market fund (VUSXX). Assets, in the Retirement Choice contract, and future contributions should be mapped to:

- Vanguard Treasury Money Market – Ticker: VUSXX, Expense Ratio: 0.09%

Any assets in the legacy Retirement Annuity contracts would not be eligible for mapping.

3. Remove the CREF Equity Index Account:

Segal Marco Advisors and Staff recommend removing the CREF Equity Index Account. Removal is being recommended due to the high expense ratio of 0.23% (net expense ratio of 0.13%; 0.10% revenue sharing), and lagging performance results relative to its benchmark the Russell 3000 Index. Assets in the Retirement Choice contract, and future contributions should be mapped to:

- Vanguard Institutional Index – Ticker: VINIX, Expense Ratio: 0.04%

Though the funds do not manage to the same index, Russell 3000 versus S&P 500, the compositions are similar with the S&P 500 constituting roughly 80% of the Russell 3000.

	1-year	3-year	5-year	7-year	10-year
Russell 3000	13.81%	10.22%	13.03%	12.39%	9.62%
S&P 500	13.99%	10.78%	13.31%	12.71%	9.49%

* Performance ended March 31, 2018

Any assets in the legacy Retirement Annuity contracts would not be eligible for mapping.

Aside from the above recommendation, the investment line-up has the lowest share class available to the Plan.

Fidelity Recommendation Summary

Recommendations:

1. Approve the change in share class for the Fidelity Diversified International fund from ticker FDIKX to FKIDX.
 - a. Replacement is recommended due to the lower net expense ratio (0.60% vs. 0.62%).
 - b. Assets and future contributions should be mapped to the new share class FKIDX.
2. Approve the replacement of the Neuberger Berman Socially Responsible fund (NBSRX) with the Vanguard FTSE Social Index fund (VFTSX).
 - a. Replacement is recommended due to Neuberger Berman's lagging performance relative to the benchmark and peers.
 - b. Assets and future contributions should be mapped from the Neuberger Berman Socially Responsible fund (NBSRX) to the Vanguard FTSE Social Index fund (VFTSX).
3. Approve the replacement of the Franklin Mutual Global Discovery fund (FMDRX) with the AQR Global Equity fund (AQGIX).
 - a. Replacement is recommended due to Franklin's lagging performance relative to the benchmark and peers.
 - b. Assets and future contributions should be mapped from the Franklin Mutual Global Discovery fund (FMDRX) to the AQR Global Equity fund (AQGIX).

1. Share Class Recommendation:

Segal Marco Advisors and Staff recommend changing share classes for the Fidelity Diversified International fund. The current option (FDIKX) has an expense ratio of 0.82% (0.20% revenue sharing). However, the ORP is eligible for a lower share class (FKIDX) with an expense ratio of 0.60%, saving participants 0.02%.

2. Socially Responsible Investment Recommendation:

Segal Marco Advisors and Staff are recommending replacing the Neuberger Berman Socially Responsible fund (NBSRX) with the Vanguard FTSE Social Index fund (VFTSX). The Fund employs an indexing investment approach designed to track the performance of the FTSE4Good US Select Index. The Index is composed of the stocks of companies that have been screened for certain social and environmental criteria by the Index sponsor, which is independent of Vanguard. The Index is market capitalization weighted and includes primarily large- and mid-cap U.S. stocks that have been screened for certain criteria related to the environment, human rights, health and safety, labor standards, and diversity. The Index excludes companies involved with weapons, tobacco, gambling, alcohol, adult entertainment, and nuclear power. Replacement is recommended due to Neuberger's lagging performance relative to the benchmark and peers. Assets and future contributions should be mapped to:

- Vanguard FTSE Social Index – Ticker: VFTSX, Expense Ratio: 0.20%

3. Global Equity Investment Recommendation:

Segal Marco Advisors and Staff are recommending replacing the Franklin Mutual Global Discovery fund (FMDRX) with the AQR Global Equity fund (AQGIX). The AQR Global Equity fund is built on the premise of applying fundamental principles through the use of quantitative models to systematically construct portfolios. AQR believes that integrating value and momentum investing across a wide variety of country markets, minimizing transactions costs, and incorporating disciplined risk control will lead to attractive long-term risk-adjusted results. The fund has displayed a positive information ratio, attractive upside/downside capture, and outperformance relative to the MSCI World index. Replacement is recommended due to Franklin's lagging performance relative to the benchmark and peers. Assets and future contributions should be mapped to:

- AQR Global Equity – Ticker: AQGIX, Expense Ratio: 0.81%

With the exception of the Fidelity Diversified International fund, the investment line-up offers the lowest net expense structure available to the Plan for every investment option. Net expense is the expense ratio minus revenue sharing, which is returned to investments where it was generated.

Fund Information

Fund Name :	Vanguard Index Funds: Vanguard Mid-Cap Index Fund; Institutional Plus Shares	Portfolio Assets :	\$97,595 Million
Fund Family :	Vanguard Group Inc	Portfolio Manager :	Butler/Johnson
Ticker :	VMCPX	PM Tenure :	2010--2016
Inception Date :	12/15/2010	Fund Style :	IM U.S. Mid Cap Core Equity (MF)
Fund Assets :	\$12,612 Million	Style Benchmark :	S&P MidCap 400

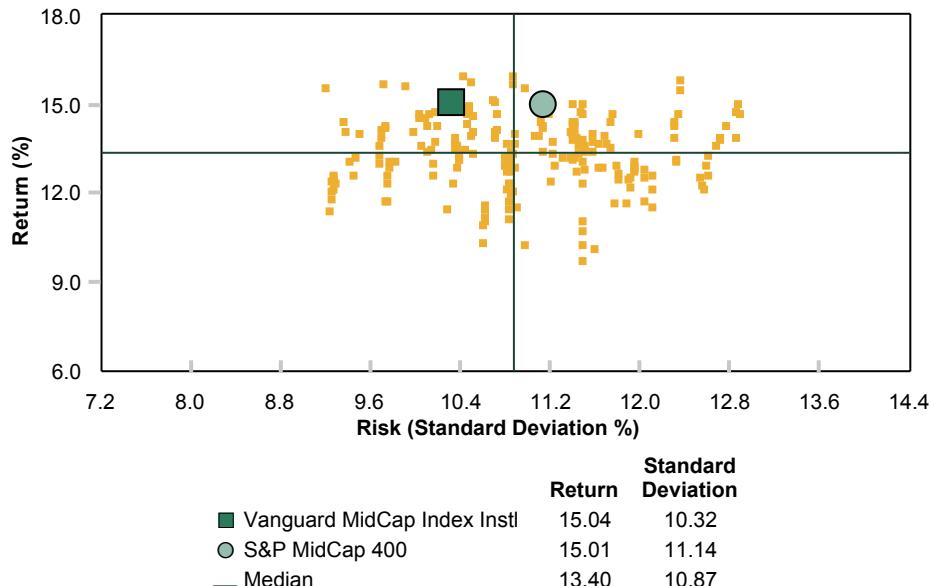

Fund Investment Policy

The Fund seeks to track the performance of a benchmark index that measures the investment return of mid-capitalization stocks. The Fund employs a "passive management" approach designed to track the performance of the CRSP US Mid Cap Index, a broadly diversified index of stocks of medium-size U.S. companies.

Fund Information

Fund Name : TIAA-CREF Funds: Lifecycle 2060 Fund; Institutional Class Shares
 Fund Family : TIAA-CREF
 Ticker : TLXNX
 Inception Date : 09/26/2014
 Fund Assets : \$36 Million
 Portfolio Turnover : 79%

Portfolio Assets : \$62 Million
 Portfolio Manager : Erickson/Cunniff
 PM Tenure : 2014--2014
 Fund Style : IM Mixed-Asset Target 2055+ (MF)
 Style Benchmark : TIAA-CREF Lifecycle 2060 Active Composite Index

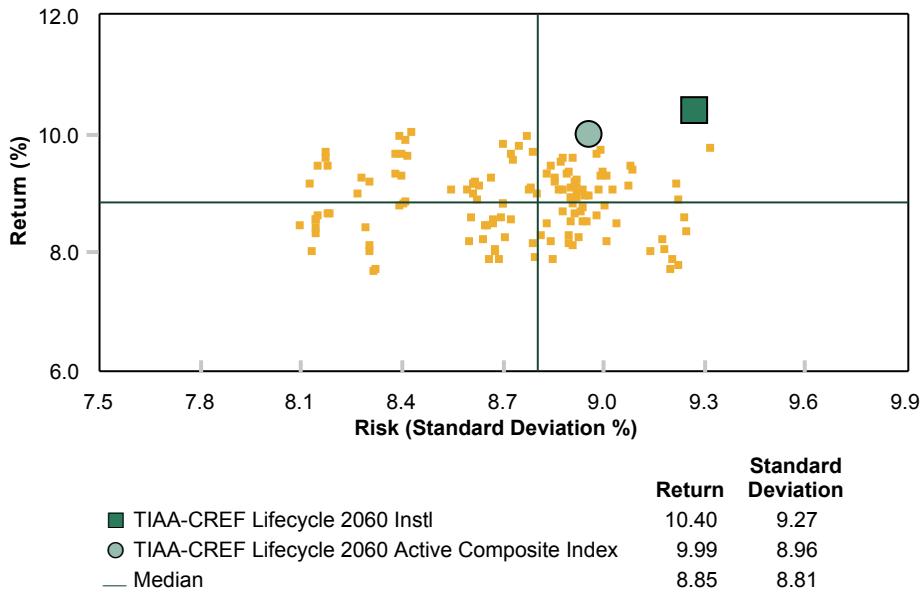

Fund Investment Policy

The Fund seeks high total return over time through a combination of capital appreciation and income. The Fund is a fund of funds that invests in the other funds of the Trust. The Fund invests in funds according to an asset allocation strategy designed for investors retiring/planning to retire within a few years of 2060.

Asset Class Overview – Target Date Funds

- **Target Date Fund Basics:** Target date funds are designed to provide participants with a simplified investment option that is diversified among asset classes and shifts to a more conservative asset allocation over time. The appeal of investing in a target date fund is that asset allocation, diversification and risk are managed by the investment manager and participants make only one investment decision, selecting the target date.
 - Target date funds are typically structured as a fund-of-fund portfolio, with underlying funds selected by either the investment manager (proprietary) or plan sponsor/consultant (custom). Funds are diversified among equity, bonds and cash-equivalent instruments. Most investment managers refine the three broad asset classes to include some combination of Non-U.S. Developed, Emerging Markets, High Yield, Inflation Linked Bonds, REITs and Commodities.
 - The strategic allocation, or glide path, for target date funds gradually becomes more conservative by reducing the equity allocation as the funds approach a specified target date.
 - At first glance, target date funds seem to be an easy investment option for 401(k) participants to reach their retirement goals, while also fulfilling the plan sponsor's fiduciary responsibility. Despite the perceived simplicities of target date funds, the structure of target date funds and the variation of composition among providers can make the investment selection process more complicated for fiduciaries.

Asset Class Overview – Target Date Funds cont.

➤ Target Date Fund Terminology:

- Glide Path: The strategic, or long-term, asset allocation for the target date fund series. The glide path illustrates equity allocation shifts a participant can expect over time.
- Landing Point: The point at which a target date fund reaches its lowest equity allocation and shifts from active asset allocation to static asset allocation. Stated as number of years post-retirement.
- Roll-down: The reduction in the equity allocation beginning 15 to 20 years before the target date. We quantify roll-down by calculating the slope of the glide path to retirement.
- Target Date: At this time, dates are typically in five year increments, which indicate the target retirement year for the participant, generally age 65. The most common vintages are 2010 through 2060 and providers are expected to continue adding new vintages over time.

➤ Target Date Fund Benchmark:

- S&P Target Date Index Series: The benchmark series represents a broad consensus of asset class exposure from an annual survey of target date fund managers. For inclusion in the annual survey, fund suites must be identified as target date funds in Morningstar's databases (CIT and mutual fund vehicles) and have a minimum of \$100 million in assets. At least 25% of surveyed target date fund suites must have exposure to an existing asset class in one or more of the respective funds for inclusion in the index (30% for new asset classes). Reconstituted annually in May, the index glide path is the average weight among target date funds by target date year for eligible asset classes, with a minimum 0.5% allocation for existing asset classes and 1.5% for new asset classes. The index is rebalanced monthly to the glide path weights.
- Based on the annual survey, near-dated target date indices are rolled into the Retirement Income Index once the target year has less than 20% of fund sponsors. Similarly, far-dated target date indices are launched once there are at least 30% of fund sponsors.

Asset Class	Index

Research Process

- **Target Date Fund Research Framework:** In evaluating target date funds, Segal Marco Advisors (“SMA”) focuses on firms with experienced asset allocation teams as well as best in class investment products. The research framework has two components:
1. Quantitative: Quantitative metrics are particularly important when evaluating target date funds in order to capture the multiple layers within an asset allocation strategy. The metrics assess the effectiveness of strategic asset allocation (the glide path), underlying fund selection and diversification.
 2. Qualitative: The qualitative assessment requires in-depth discussions with the asset allocation teams, as well as leveraging SMA’s proprietary manager research for a holistic view of the asset management firm.

Target Date Fund – Assets Under Management

- TDF assets concentrated among a few providers
 - Approximately 66.7% of TDF mutual fund assets are managed by Vanguard, T. Rowe Price and Fidelity.
 - Of the 41 mutual fund families offering TDFs, 93.4% of TDF assets are managed by the top ten providers.

TDF Provider	Total Net Assets (\$Bil)	Market Share
Vanguard	381	38.2%
Fidelity	227	20.5%
T. Rowe Price	166	14.9%
American Funds	89	8.9%
JPMorgan	53	5.4%

TDF Provider	Total Net Assets (\$Bil)	Market Share
TIAA-CREF	44	4.4%
Principal	26	2.6%
American Century	19	1.9%
BlackRock	18	1.8%
John Hancock	17	1.7%

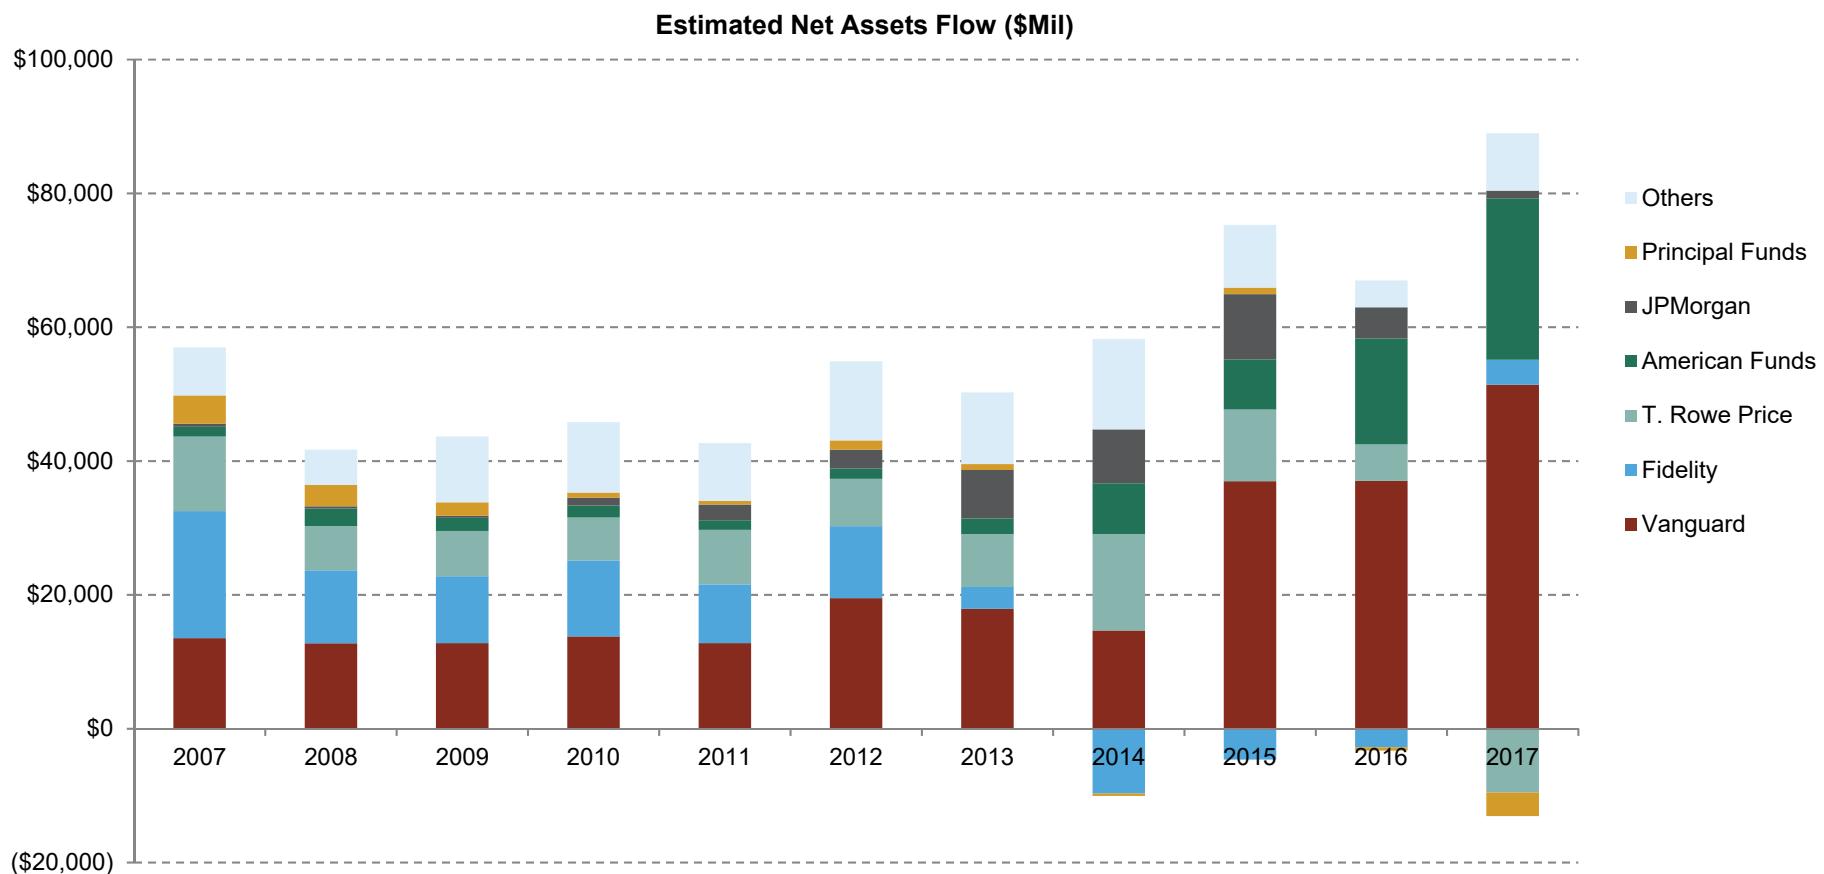

Source: Morningstar Direct; 12/31/2017

 Segal Marco Advisors

Target Date Fund – Net Asset Flow

- Largest TDF providers losing market share of net asset flows
 - During 2017, the three largest TDF providers received 60% of total net asset flows due to Vanguard's significant asset flows. The third largest provider saw mutual fund outflows in 2017.
 - Vanguard became the industry's largest target-date mutual fund provider, unseating Fidelity in July 2014.
 - Within active target-date mutual fund providers, American Funds received the largest asset inflows in 2016 and 2017.

State Retirement Agency of Maryland Optional Retirement Plan Vendor Survey

As part of the bi-ennial ORP review, Segal Marco Advisors conducted a survey of the two recordkeepers, Fidelity and TIAA. The survey was distributed to thirty four (34) Plan Administrators of the Maryland Optional Retirement Plan. The survey was constructed to gather feedback on the Plan's design and current vendors. Survey respondents were mainly asked whether they were 'Unsatisfied', 'Satisfied' or 'Very Satisfied' with certain aspects of the Plan and were given space to provide commentary.

Survey topics included:

- General issues
- Investment options
- Administrative services
- Communication and education services
- Technology and customer service

A total of ten (10) Plan Administrators responded to the survey.

General Issues

The Survey found that the Plan Administrators were generally happy with the overall structure of the ORP as 90% responded that they were satisfied or very satisfied.

Plan Sponsor and participant responsiveness to issue resolution is a key component of general satisfaction with each recordkeeper:

- **TIAA**
 - Respondents were satisfied with TIAA's issue resolution, noting TIAA is very responsive to all questions from employees and timely in providing answers.
 - Issue resolution for plan sponsors was also satisfactory, with comments stating that emails are answered quickly and there is always a representative available that is very knowledgeable on the ORP program.
- **Fidelity**
 - While 80% of responses showed satisfaction with Fidelity's participant issue resolution, 20% felt it was unsatisfactory. Areas for improvement were Fidelity's slow response time, which makes it difficult to get information back to participants, and the cumbersome nature of PlanFocus, which causes challenges in updating participant records.
 - Similar to participant issue resolution, 70% of responses found Fidelity's plan sponsor issue resolution to be satisfactory. However, 30% found it unsatisfactory commenting that Fidelity's response time is slow, and that when calling customer service, certain representatives are not knowledgeable about the Maryland.

Fidelity and TIAA use different models to service the Plan and participants. Fidelity relies heavily on technical support and use of its internet website. Although Fidelity has representatives to conduct seminars and attend new enrollment meetings, it does not offer a significant number of field representatives to support the colleges and universities. TIAA relies more on people on the ground and offers a dedicated group of field representatives available to meet with participants in all the colleges and universities. In addition, Fidelity has \$398.2 million in Plan assets compared to TIAA, which has over \$3.2 billion in assets.

Investment options

All of the respondents were satisfied or very satisfied with the number and quality of the Plan's investment options for both TIAA and Fidelity. While not directly commented on, the responses suggest there are few participants asking for more investment options. With the introduction of the self-directed brokerage window in 2018, participants now have the flexibility to purchase any mutual fund available in the window.

Administrative services

As a whole, respondents were satisfied with the administrative services provided.

- ***TIAA***
 - Feedback showed satisfactory performance:
 - One respondent specifically commented that they have never had a problem obtaining an answer.
 - There was also positive feedback on the website being administrator-friendly.
 - One comment did request additional training.
- ***Fidelity***
 - Feedback was positive but less favorable than TIAA, which appears to be due to Fidelity's lower level of field support and more cumbersome processes
 - 20% of respondents were not satisfied with Fidelity's responsiveness.
 - A representative was replaced and not appropriately communicated
 - 30% of the respondents were unsatisfied with the administrative services and indicated processes were burdensome.
 - One respondent commented that it is difficult to use Fidelity's PlanFocus System.
 - 20% stated that they were not satisfied with the timeliness of services and reports.
 - An example was the inflexibility in restructuring a 402g excess deferral report to show only those still participating.

The majority of responses suggest that both providers do good work for Plan administration; however, Fidelity received more negative responses than TIAA.

Communication and education

Respondents were largely satisfied with the communication and education services provided by both record-keepers.

- ***TIAA***
 - 90% of respondents were satisfied with the level of education that Plan participants are receiving.
 - A respondent indicated they would like e-mail blasts to all participants to encourage retirement savings.

- Another respondent would like to see online assistance for enrollment and account changes.
 - Would prefer if new employees had the ability to enroll online and select funds instead of having to wait for a welcome packet.
- 90% of the respondents were satisfied with the level of field representative support available.
 - Respondents stated that even when they lose a long time field representative, the new representative is well-versed with the Plan and picks up where the other representative left off.
- ***Fidelity***
 - 70% of the Plan Administrators stated that they are satisfied with the program. However, respondents expressed some issues:
 - Respondents mentioned that representatives need more training on the ORP system.
 - One respondent said that turnover lately has been high, and there always seems to be a high learning curve when a new representative is added.
 - 70% of the Plan Administrators stated that they are satisfied with new employee education program.
 - Would prefer if new employees had the ability to enroll online and select funds instead of having to wait for a welcome packet.

Technology

All respondents said they are satisfied with the TIAA website, and all said that it is user friendly. 70% of respondents said they are satisfied with the Fidelity website, and that it is user friendly. This is a significant drop from survey results two years ago when respondents were 96% satisfied with TIAA's website and 88% satisfied with Fidelity's.

Conclusion

The respondents were generally satisfied with the Plan's service providers. Several respondents listed items they felt would enhance the program such as online enrollment, which was the most consistent.

For TIAA, respondents stated that participation rates for eligible employees range from as little as 15% to as much as 85%. Respondents were happy with the plan and had no suggestions for improvement.

For Fidelity, respondents stated participation rates among eligible employees as low as 5% and as high as 45%. Consistent with prior surveys, respondents had several issues they would like to see addressed: less cumbersome plan sponsor website and transaction processing and better responsiveness. Onsite education has improved, but respondents would like even more outreach for education programs. Updating the PlanFocus system as well as better communication through email was mentioned as a suggested improvement for efficiency for the plan administrators.

General				
How satisfied are you with the overall structure of the Optional Retirement Program?	10% Unsatisfied	50% Satisfied	40% Very Satisfied	
How satisfied are you with TIAA-CREF's issue resolution for participants?	0% Unsatisfied	40% Satisfied	60% Very Satisfied	
Comments:				
8) TIAA is very responsive to all questions posed, and provides timely answers to our employees.				
How satisfied are you with Fidelity's issue resolution for participants?	30% Unsatisfied	40% Satisfied	30% Very Satisfied	
Comments:				
8) Fidelity takes more time to respond, and makes it difficult for Plan Administrators to provide information back to them. Their PlanFocus system is cumbersome (this is the method we use to update records when employees depart).				
How satisfied are you with TIAA-CREF's issue resolution for you, as a plan sponsor?	0% Unsatisfied	50% Satisfied	50% Very Satisfied	
Comments:				
8) Emails are answered quickly. We can always find a representative who is knowledgeable of the ORP Program for the University System of Maryland.				
How satisfied are you with Fidelity's issue resolution for you, as a plan sponsor?	30% Unsatisfied	40% Satisfied	30% Very Satisfied	
Comments:				
8) Their response is slow and at times when we call the customer service number, certain representatives are not knowledgeable about the specific ORP plan available to the University System of Maryland.				

Communication and Education: TIAA-CREF				
How satisfied are you with the communication/education services and programs?	10% Unsatisfied	80% Satisfied	10% Very Satisfied	
How satisfied are you with the level of education participants are receiving?	10% Unsatisfied	80% Satisfied	10% Very Satisfied	
What would you like to see added or changed?				
2) Email blast to employees to encourage retirement savings.	5) More education on financial wellness overall.	6) Online assistance for enrollment and changes to accounts.	8) Would like the ability for our employees to enroll online and select their funds at the time of hire instead of waiting a month or more for them to receive their welcome packets.	
How satisfied are you with the number of field representative support available?	10% Unsatisfied	50% Satisfied	40% Very Satisfied	
Comments:				
8) Even when we lose a long time field rep, the new rep is well-versed with the plans and picks up where the other rep left off.				
How satisfied are you with the new employee education on the Program?	20% Unsatisfied	60% Satisfied	20% Very Satisfied	

Communication and Education: Fidelity				
How satisfied are you with the communication/education services and programs?	30% Unsatisfied	60% Satisfied	10% Very Satisfied	
How satisfied are you with the level of education participants are receiving?	40% Unsatisfied	40% Satisfied	20% Very Satisfied	
What would you like to see added or changed?				
2) Email blast to employees to encourage retirement savings.	8) Fidelity representatives need to understand the ORP system for the University System of Maryland better. As with TIAA, it would be great if new employees would have the ability to enroll online and select their funds instead of having to wait for a welcome packet.			
How satisfied are you with the number of field representative support available?	33% Unsatisfied	44% Satisfied	20% Very Satisfied	
Comments :				
3) Have not met the new field representative, cannot answer this question.	8) Turnover lately has been high, and there always seems to be a high learning curve when a new representative is available.			
How satisfied are you with new employee education on the Program?	30% Unsatisfied	50% Satisfied	20% Very Satisfied	
Comments :				
3) Do not know what this question refers to, cannot answer.	8) None. The education provided to administrators is OK.

ORP RECOMMENDATION DETAILS

Mutual Fund Evaluation Customized for DC Plan Sponsors

- Each fund is carefully vetted and chosen to fit your unique needs.
- Our proprietary mutual fund grading system, **S³**, is designed to select investment options to meet the criteria for each search by evaluating both qualitative and quantitative data.

S³ – Segal Scoring System

➤ What it is: S³ is a proprietary and dynamic mutual fund grading system

- Designed for defined contribution plan sponsors in the evaluation of traditional mutual funds
- Utilizes qualitative and quantitative information to measure the performance of investment products
- Based on the firm's philosophical views on the critical factors required to analyze and evaluate investments

➤ Methodology:

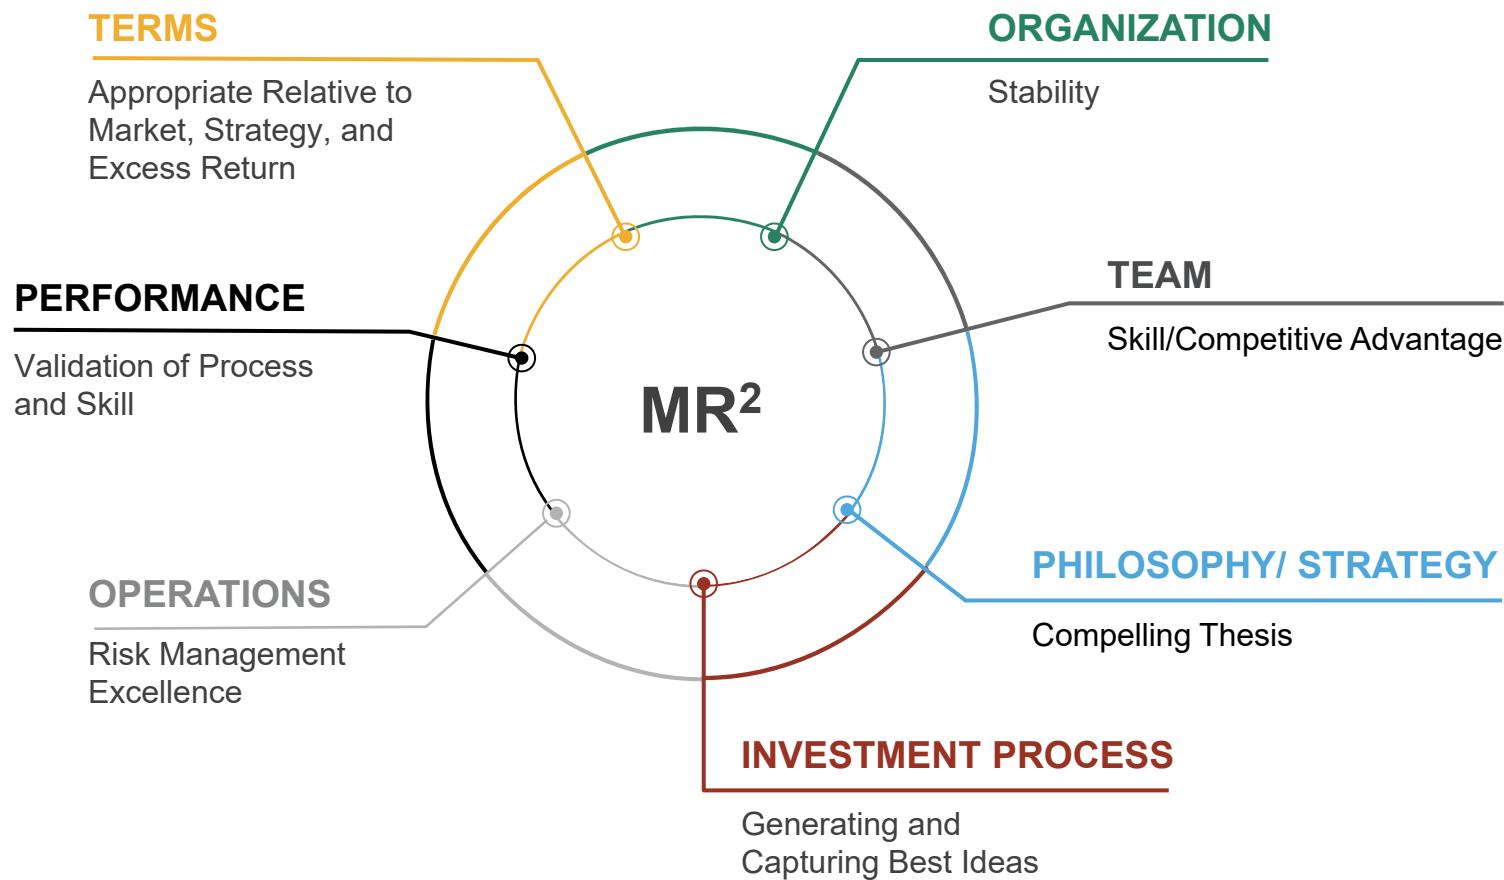

- Conducted external research and reviewed case studies on evaluating investments
- Identified five main categories for measuring success:
 - Fund Style/Characteristics
 - Manager Tenure
 - Investment Performance
 - Risk
 - Fees
- Within each category, underlying metrics were applied to calculate the score
- Back-tested data to confirm the methodology

➤ What the scores mean:

For Active Funds:		
Grade	Action	
A	Above Average	No Action
B	Above Average	No Action
C	Average	Closely Monitor
D	Watch list	Fund Alert
F	Immediate Action	Terminate
NA	< than 3 years of history	Check share class and inception date

For Index Funds:		
Grade	Action	
A	Satisfactory	No Action
B	Satisfactory	No Action
C	Satisfactory	No Action
D	Immediate Action	Terminate
F	Immediate Action	Terminate
NA	< than 3 years of history	Check share class and inception date

Our MR² Process Identifies the Best Managers for Your Plan
